

VACANCY DESCRIPTION

JOB TITLE: Senior Engineer	DISCIPLINE TEAM: Civil / Infrastructure
OFFICE LOCATION (S): Nottingham, Edinburgh, Bradford-on-Avon.	
<p>SYNOPSIS:</p> <p>Due to the ongoing success and an ever increasing portfolio of construction work, there is a strong need to expand with the key hire of a senior structural/civil engineering project manager – both within existing clients/projects; and externally. In particular, the team is currently undertaking major infrastructure projects, including drainage, highway and structural design.</p> <p>The role will offer the candidate an opportunity to be involved in many interesting multi-discipline projects, with a view to developing the existing structural engineering capabilities within SLR Consulting. Reporting directly to, and with the full support of the Civil//Infrastructure Technical Discipline Manager, the role presents an excellent opportunity to join at a significant level, and to play a key role in the continued development of the company.</p> <p>The work will be a mixture of office based design work and site supervision / project management, and as such successful candidates may be expected to travel within the UK.</p> <p>Excellent interpersonal abilities are essential, given the strong client facing aspect associated with the commercial and business development responsibilities of the role.</p> <p>The position involves a high degree of responsibility, involving regular Client contact and management of all parts of the supply chain.</p>	
TECHNICAL SKILLS / ABILITIES	<p>The role ideally will suit a civil/infrastructure engineer with a bias towards structural design and construction, and will require a significant contribution for the technical output of the team, including general hands-on design, along with concrete and steelwork design.</p> <p>The post is suited to candidates possessing a sound knowledge of Civil and Structural engineering along with good communication skills. A mixture of design office and site based skills would be advantageous.</p>
QUALIFICATIONS / PROFESSIONAL MEMBERSHIP STATUS	<p>Good first degree in a relevant discipline and any relevant post-graduate qualification would be advantageous.</p> <p>Working towards membership of a relevant professional body, or being of Chartered Status.</p>
SALARY	Commensurate to experience + attractive benefits
